MAKE A SPIDER WEB WITH YOUR STRING

You'll need: Sticks and string

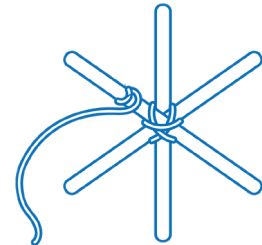

1 Collect 3 sticks.

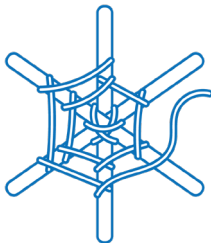

2 Secure your sticks together by wrapping string around them and tying a knot.

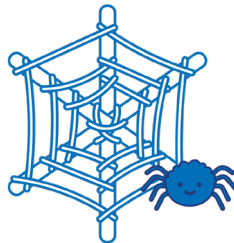

3 Tie a knot around one stick, making sure your string is nice and long.

4 Wrap the string over and around each stick, spacing each circle apart.

5 Keep going until it looks like a web!

Tip: Hang it up or add a spider to make it extra spooky!
